CURRENT PROJECTS:

A Young Lady's Illustrated Primer

AUG 2025 - PRESENT

Built prototype AI-assisted educational technology for young women.

Website: portalsofgarrett.com/founder

The Data of Being

DEC 2025 - JAN 2026

Wrote research paper comparing human and artificial intelligences, in collaboration with AI.

Website: github.com/garrettmoss/data-of-being/

EXPERIENCE: creative direction

Sunstone SPC, Berkeley, CA — Founder

AUG 2025 - PRESENT

Founded Social Purpose Corporation with the mission to create tools that give young people clarity and agency to navigate an increasingly complex world.

Starting with the interactive educational book project "A Young Lady's Illustrated Primer."

Website: portalsofgarrett.com/founder

Creative Genius Realized, Berkeley, CA — Co-founder

JAN 2023 - PRESENT

Expediently founded a non-profit focused on supporting community leaders that host in-person gatherings promoting physical and emotional well-being.

Funded by Anthropic employee as a result of work as treasurer fundraising.

Website: creativegeniusrealized.org

SKILLS

Scholarly research.

Interdisciplinary study.

Permaculture.

Technical writing.

Computer building.

Solar installation.

LANGUAGES (human)

English - fluent

Japanese - conversational

LANGUAGES (computer)

Python

Git

Java

Javascript

R

HTML

SQL

MATLAB

AWARDS

Dean's List 4.0 GPA in College of Letters & Sciences, UC Berkeley

Nomination to National Society of Collegiate Scholars

Self-employed, Berkeley, CA — Creative Director

JUN 2021 - JAN 2023

Provided support to emerging artist, including:

- Creative counsel
- Financial guidance
- Logistical support
- Audio engineering

Website: thelegendofjill.com/song-library

EXPERIENCE: linguistics, software

Google, Mountain View, CA — Linguistic Data Evaluator

MAR 2014 - MAR 2015

Worked on training precursor to AI with the SAFT (Semantic Annotation For Text) team of linguists on the same floor as Google Brain.

Annotated large datasets of search queries and web documents to extract semantic and syntactic information with a team of about 10 linguists.

Pragmatic Foresight, Berkeley, CA — Computational Linguist

JUL 2013 - MAR 2014

Worked on web application prototype using Python, Google App Engine, Jinja2, HTML5, jQuery, and D3.js.

Researched NLTK, WordNet, and other linguistic databases for use on upcoming NLP project.

Developed prototype for visualization of linguistic data using D3.js.

The Long Now Foundation, San Francisco, CA — Computational Linguist

MAY - AUG 2013

Worked as a linguist and programmer on the [PanLex project](#) to produce a database for a pan-linguistic lexicon, using SQL queries and Perl scripts.

Helen Wills Neuroscience Institute, UC Berkeley, CA — Research Assistant

MAR 2012 - OCT 2013

Worked as a linguist on the experimental design for a key project contributing to a published paper on [decoding human speech signals from brainwave patterns](#).

Also aided as research assistant in data processing with machine learning using MATLAB.

Scholarship, leadership & service at UC Berkeley

Distinguished Scholar Award

GPA above 3.5 at Palo Alto High school

Kathleen McCowin

(650) 862-4703

ksmccowin@gmail.com

McCowin & Sons Patent Drafting, San Francisco, CA — Technical Drafter

2008 - 2017

Assisted in the drafting of patents for various companies and applications in Silicon Valley, including biotech and climate tech startups.

Examples: electron microscopy ([dark field](#), [incoherent](#)), roof cooling ([hybrid](#)).

EXPERIENCE: building

Lybeck Design Build, Oakland, CA — Apprentice Handyman

JUN 2022 - FEB 2023

Assisted a builder installing decks, railings, etc. Demolishing old structures.

A1 Sun, Berkeley, CA — Solar Installer

NOV 2020 - JUN 2021

Worked with teams installing solar power systems in residential homes.

Thoughtspace, Providence, UT — Apprentice Carpenter

SEP - OCT 2020

Worked under a builder constructing his off-grid cabin in the Wasatch Mountains, Utah.

EXPERIENCE: landscaping, farming

Garden Garrett, Berkeley, CA — Landscape Gardener

JUN 2016 - NOV 2020

Started my own business in East Bay while working in SF and gained enough of a client following to move on from the landscaping company that trained me and work for myself.

- Handled client communication, negotiating project design, updates, and change orders.

Green Earth Gardeners, San Francisco, CA — Lead Gardener

NOV 2015 - JUN 2020

Began landscaping as assistant, worked my way up to lead gardener. Managed over 50 outdoor and indoor residential and commercial gardens, working on teams, supervising assistants.

Green String Farm, Petaluma, CA — Farming Intern

JUN - AUG 2015

Lived and worked collaboratively with 10 paid interns on a natural process

farm in the North Bay.

EDUCATION

Urban Permaculture Institute, San Francisco, CA — *Permaculture Design Certification*

SEP - NOV 2015

Attended courses in permaculture principles, while also joining a design team that saw through the design of a landscape space at an art gallery. Presented design as final project.

Green String Institute, Petaluma, CA — *Natural Process Certification*

JUN - AUG 2015

Attended courses in farming practices, including design and build of infrastructure, while working the existing farmland with 10 other interns.

University of California, Berkeley, CA — *B.A. Linguistics (cum laude)*

AUG 2011 - MAY 2013

Received a degree in Linguistics from Cal with Distinction (cum laude) in the top 10% of the class.

Worked in a neuroscience lab as a research assistant decoding human speech from brain waves.

Foothill College, Los Altos Hills, CA — *Certificate of Transfer Studies (IGETC)*

SEP 2009 - JUN 2011

Received certificate of transfer studies for UC system at community college in Silicon Valley.

Palo Alto High School, Palo Alto, CA — *Diploma (distinguished scholar)*

AUG 2006 - JUN 2009

Received diploma from competitive high school in Silicon Valley with honors.

PROJECTS

Creative writing, SF Bay Area, CA — *self-directed*

Wrote short stories and poetry throughout adult life.

Website: portalsofgarrett.com/writer

Computer building, Palo Alto, CA — *self-directed*

Assembled my own desktop and laptop computers throughout my teenage years.

Radio building, Palo Alto, CA — *electrical engineering summer camp*

As a kid, built many small projects, including a working crystal radio as a final project, at an electrical engineering camp in Silicon Valley.
